Hi Maurizio

I am really sorry, we do not supply any sensors that are suitable for use in rebreathers.

There is a shortage of all non medical sensors at the moment, the sensor manufacturers are prioritising on sensors for use in medical ventilators.

Best regards

Ryan

Hi Ryan,

Recently I have been struggling to find O2 cells for my rebreather JJ.

It should be a R17 cell.

Any chance you can help me with that?

Thanks a lot

Maurizio

Dear Maurizio

I am pleased to inform you that your MixChek is now working correctly.

We have replaced the sample tubing, cleaned and calibrated your device.

MixChek Calibration = £15

Sample Tubing = £3

Total excluding carriage = £18

Return carriage by Airmail Tracked & Signed = £16-£17

We will arrange to send the device back to you, please can you let me know if you have any requirements for sensors that you may like to add to the package?

I will await your reply.

Best regards

Ryan
