

Invoice number: RST130628-1
Shipment date: 28/05/2021

Magnetic signature analysis of production components

500 x 8000050 DB200381 Oxygen Sensor PCB Assembly

Once the analysis has been carried out, please complete the following and email back to VST:

info@vandagraphst.com

Magnetic signature values:

Highest: 6.0 nT

Lowest: 4.0 nT

Note: A lot of difference in the readings with these items. This I think is due to the orientation of the wires and the multi plugs.

Result (PASS/~~FAIL~~):

Name: Ian Honeyman

Position: Magnetic Ranger

Signed by:

On behalf of JFD

Date: 28/6/2021
