

VersaStream® CO₂ Sampling Lines

Available CO₂ sampling lines

Nasal Sampling Line

Nasal Cannula

Available in Adult, Paediatric and Infant sizes & also available with O₂ delivery

Nasal/Oral Cannula

Available in Adult and Paediatric sizes & also available with O₂ delivery

Airway Adapter Sampling Line

Available in Adult/Paediatric and Infant/Neonatal sizes.

Also available as separate sampling lines and a range of airway adapters.

Available for short-term and long-term applications

Short Term
Monitoring
≤ 24 hours

Long Term
Monitoring
≤ 72 hours

Compatible for use with:

Viamed VM-2500 series
Masimo, Phase-In

Respironics
Philips, Dräger

Luer Lock Male

Oridion
Nellcor, Covidien, Medtronic

Why VersaStream® CO₂ sampling lines?

- One-piece sampling solution
- Cost-effective alternative to Nafion® tubes
- The gas-selective non-porous material facilitates fast and complete removal of condensation from the sampling line
- The integrated bacterial filter prevents contamination
- Reliable measured gas values, due to negligible dead space volume of the filter - even in cases of high respiration rates
- Integrated bacteria filter and water removal reduces the number of patient circuit parts and speeds up patient monitoring preparation time
