Hi Ryan,

I'm doing well I think. Thanks for asking. Hope you're the same.

I will have to split my last order into 2 boxes as some sensors are more urgent than others. I should email Cathy in about 2 hours to instruct her so please place those diving sensors in the box with urgent ones.

Pozdrawiam serdecznie / Best regards,

Hi Piotr

I hope you are well.

The R-33D1 was replaced by the R-33S1 (they are essentially the same). Would you like 2x R-33S1 sensors?

They will be invoiced from Vandagraph, but we can put them in with your Viamed delivery if you wish or would you prefer we send them to you directly?

I will await your reply.

Best regards  
Ryan

Hi Piotr

Thank you for the new orders. Sarah is away at the moment, so I will ask colleagues at the office to process the orders.

The following are Vandagraph sensors, so they will have to be processed through Vandagraph. Of course we can ship at the same time as the Viamed sensors. The R-33D1 has been superseded by the R-33S1.

8.

Sensor type: R-33D1  
Qty: x1

9.  
Sensor type: R-33S1  
Qty: x1
