Hi Pieter

I hope you are all well at rEvo. Just a quick check to see if you have any requirements for oxygen sensors after August?

Regards

Steve

Onderwerp: Increase in demand for oxygen sensors due to the recent spikes in COVID case

Hi Pieter

Just a quick 'heads up' that there has been an increase in demand for oxygen sensors due to the recent spikes in COVID cases. This could start to adversely affect production lead times and component supply chains,,,

Currently we have:

500 sensors shipping to to you next week.

500 sensors shipping in early August

100 sensors are being maintained for emergency stock.

If required, you may wish to schedule for sensors in September/October.

Regards
