Feedback - Product Feedback Positive

Issue ID #21057

Date Created 29/Sep/2009

Issued To: Derek Lamb

Completed Status: Still Outstanding

---

Notes:

Added by Sarah Wilford sent to Steve Nixon

We currently have the orange VM-2105 on trial with Chris Chambers of South Western Ambulance Service, who is involved in the Olympics 2012, he gave the following feedback:

`I found it very easy and adaptable, tested on children from age 7 up to adults of all shapes and sizes. The marine environment did not create any obvious issues, the unit was easily visible afloat and coped perfectly well with sea- spray and boat motion.`
