Hi Zoey and Kate, Please process the attached order. If you require evidence of the pricing, please see the pictures from my skype conversation with SN:

15:08

Hi Steve, if you have the chance, please can you provide me with a Viamed to Vandagraph transfer price for R-17V (0110018)? It looks like we have a bit of stock (95) and I think we have only sold 35 this year so far. I was thinking of taking 50 if this would be okay?

Steve, 22:03

I have asked Zoey to chase up the customer who wanted 50, I think their need will have past. I'll also see if Mesa need sensors (20). We need at least 10 in stock for customers. How many are you likely to need up to the end of the year? I will add a price at £23.00

22:32

50 would be helpful, if you want me to take more I can use them

We've had a bit of a run and the 200 x R-17VAN I hoped would arrive next week are going to be here on the 20th due to the delays at Envitec

Today

Steve, 09:22

OK, I think we can assume that 50 for Intramedical not needed and quote will also have expired. If you need them now why don't you take say up to 80.

11:24

Hi Steve, I am placing a VAN order to Viamed for OOM111 - 0110560. It is not on the sales list. I have paid £46 for this in the past, are you okay with that?

the pricing was from Viamed Opera Special Pricing, so I expect it is one you have done in the past

Steve, 14:39

There was a pricing increase 1/7, so bare min needs to be £48.60

Thanks  
Ryan
