

Manufacturer and distributor of medical equipment for use in emergency rescue environments, hospitals, medical centres, dental surgeries...

Product Portfolio - October 2009

- Oxygen Monitoring
- Pulse Oximetry
- Capnography
- Infant Resuscitation
- Oxygen Hoods/Tents
- Phototherapy Lightshields & Eye Masks
- Anaesthesia - Nerve Stimulation

Oxygen Monitoring

Viamed is the master distributor for Teledyne Analytical Industries.

- **AX300 Oxygen Analyser & MX300 Oxygen Monitor**
- **Oxygen Monitoring Accessories**
- **Medical Oxygen Sensors**

Viamed also supplies flowsensors for flow measurement of gas delivered by anaesthesia systems and ventilators.

Pulse Oximetry

Viamed manufactures a range of hand held and finger oximeters as well as a series of reusable and disposable SpO₂ sensors, compatible for use with most OEM pulse oximeters and patient monitors.

- **VM-2160 & VM-2160-L Hand Held Pulse Oximeters**
- **VM-2101 Finger Oximeter**
- **VM-2105 Silicone Finger Oximeter**
- **4000 Series SpO₂ Sensors**
- **Repairs Services**

Adult Soft Sensor

Paediatric Soft Sensor

Adult Finger Sensor

Silicone Wrap Sensor

Disposable Sensors

Ear Sensor

Capnography

Combining outstanding performance and reliability in either mainstream or sidestream CO₂ and SpO₂ monitoring.

- **VM-2500-M Mainstream CO₂ & SpO₂ Monitor**
- **VM-2500-S Sidestream CO₂ & SpO₂ Monitor**

These capnographs combine innovative technologies and design with the latest materials to create extremely accurate and reliable measurement for intubated or non-intubated patients.

Infant Resuscitation

Viamed manufactures a range of neonatal equipment including:

- **Infant Resuscitation Cabinets**
- **Tom Thumb Infant Resuscitation Units**
- **Apgar Timer**
- **NeoPEEP Neonatal Resuscitation Circuit & Silicone Facemasks**

The radiant warmer supplied with the Infant Resuscitation Cabinet, can also be supplied individually in numerous formats; wall mounted, ceiling mounted and free standing.

Oxygen Hoods/Tents

Designed for use with neonates and paediatrics, for the short-term stable delivery of Oxygen.

- **Reusable oxygen hoods** - with or without sideports
- **Disposable oxygen hoods** - to prevent the risk of cross-infection

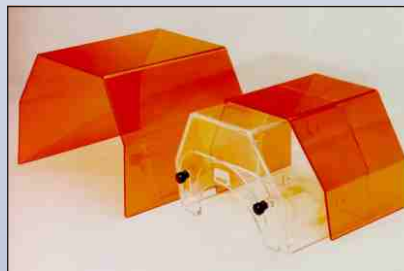

Phototherapy

Viamed phototherapy lightshields and hoods are manufactured from Amber 300* Perspex. These shields are designed to block the light falling on the neonate's eyes during phototherapy.

Viamed also supplies phototherapy eye masks should these be preferred.

- **Phototherapy Lightshields & Hoods**
- **Phototherapy Eye Masks**

*Amber 300 & Perspex are trademarks of ICI

Anaesthesia - Nerve Stimulation

Microstim DB3 Nerve Stimulator

The Microstim DB3 Supramaximal Nerve Stimulator provides a means of assessing, on demand, the depth or degree of muscle relaxation achieved during anaesthesia.

The Microstim DB3 is the latest addition to the Microstim range, which has been popular with anaesthetists worldwide since 1985 and has served extremely well, being low cost, easy to operate and reliable in use.

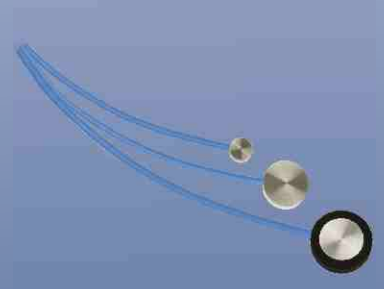

Temperature Monitoring

400-AC Autoclavable Temperature Probes

The 400-AC Autoclavable temperature probes are for accurate monitoring of body surface and core temperatures in neonates, paediatrics and adults.

This series includes temperature probes compatible to the YSI 400 Series as well as other leading manufacturers including Siemens, Hewlett Packard and Phillips.

Other products available from Viamed include:

- Acrylic Products - tube holders and cot lids
- MDI Adapters
- Pressure Management & Positioning Pads
- Neonatal Absorbent Pads
- Stethoscopes

Viamed Distribution

Established in 1977, Viamed's products are supplied into a number of healthcare environments including; emergency medical services, hospitals, medical centres, dental surgeries, community and home care.

Sales in the UK are conducted through the company's own dedicated sales team and a network of UK distributors. Internationally Viamed has a network of independent distributors throughout Europe, the Middle East, Far East and North America.

Viamed Credentials

Viamed is committed to quality and reliability and operates in accordance with the ISO 9001:2000 Quality Management System.

Viamed's products are supplied in accordance with the ISO 13485:2003 Quality Management System for medical devices and related services.

Viamed products are CE marked to the requirements of Medical Devices Directive 93/42 EEC.

The Microstim DB3 and the Tom Thumb Infant Resuscitation Unit are accredited to ISO 13485:2003 CMDCAS Recognised, for distribution in Canada.
