Dear Hanson,

Apologies for the questions but I have not been involved with your orders and have taken over in Zoey's absence. We have two orders on our system for you.

1) 10 x UFO 130-2 & 2 x UFO 130- PCB.

2) 10 x UFO 130-2 & 26 x R-22MED.

Are you wanting more stock adding of the UFO sensors? Or are these orders correct?

Kind regards

Dear Hanson,

Thank you for confirming this for me.

Moving forward as an account customer we will not have to issue you a proforma invoice and can simply just process as an order instead. Carriage will then be added on to the order at the time of the shipment being invoiced.

We currently have 10 x UFO sensors saved from MVM131298. Proforma invoices need to be paid in order to secure stock so we were awaiting payment for MVM131643 so that this could be also secured. As you are now an account customer your orders will automatically go on to our live stock allocation list.

The lead time for you remaining 10 UFO's will be approximately 2-3 weeks if not sooner.

Would you like me to go ahead and process your order for 26 x R-22MED sensors as I can just add these to your MVM131298 as an official order?

Do you want us to ship the stock we have available now?

If you have any further queries, please do not hesitate to contact me.

Kind regards

Zoey Teal

Dear Hanson,

I have been speaking with my accounts department and they have asked if you would like a 30 day account?

On account you have 30 days to make payment after the date on the invoice so orders can be paid for at once. You can remove bank charges and just pay one lot of them if you are paying multiple invoices. At least this way you will save on bank charges and also minimise the high risk and complication of errors occurring when multiple orders are being changed and part shipped.

Please can you confirm if a 30 day account is suitable for you?

If you have any further queries, please do not hesitate to contact me.

Kind regards

Zoey Teal
