Subject: R-23V Oxygen Sensor

Dear Abduladim Sufrani

Thank you very much for your enquiry.

We would be happy to supply you with the R-23V O2 sensors at our distributor pricing:

R-23V - part no. 0110023 = GBP £28 / USD \$43.75 / EUR €35
Price for each piece EXW

I can look into shipping costs for you, but I will require your complete delivery address and company details? We have had some trouble organising this for Libya in the past, do you have an account with Aramex or another courier that can be used for shipping?

I am not up to date with the current political climate in Libya, but we have had warnings in the past from our bank that some payments could be stopped, I believe the last order we sent to Libya was actually paid from a different country and delivered to a different country.

I look forward to your reply and please let me know if you have any questions.

Kind regards
Ryan
