## Drawing of inner back plate including extended rails

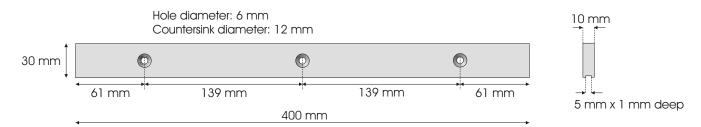

## Required medirail sections for Shuttleworth's cabinet

## Top Rail - PP8767

## Middle and Bottom Rails - PP8768

It is accepted that there will be a small loss due to the cutting process and that the rails may be in the region of 3mm shorter than the specifications above.

Rail has been sourced from Key Health Solutions. Cutting, drilling countersunk holes and finishing to be carried out by Tanda & Co.
