We would use our own Courier for this P.O.

Would you send some technical information to start our Custom details?

The lead time for this P.O is 5 weeks – **NOV 3th** – pls let us aware for the pick up....as I mentioned before the material is URGENT.

Regards
Martha

Hi Martha

Please find your proforma invoice attached, the currency is in USD.

Please check the details and let me know if there are any amendments required.

If you would prefer to use your own courier, please just let me know the details and I will remove the UPS and Insurance costs. We have calculated the carriage and package sizes on the sensors being bulk packed, this reduced the size and costs (each sensor will still be sealed in an individual gas barrier bag with it's own label).

I look forward to your response.

Best regards

Ryan

Hi Martha

Is the delivery to Florida USA or Argentina?

I am not sure if there is any problem delivering to USA, as Viamed is not FDA registered, although the product is.

Is it to be invoiced to Medix or Xidem?

Best regards

Ryan

Hi Martha

Thank you. Please can you provide me with the complete delivery and invoice details for XIDEM so I can prepare your proforma invoice.

We would normally quote for delivery by UPS unless you have a preferred courier or account you would like us to use?

Best regards

Hi Ryan,

I thought that maybe you have stock of 200.....if you don't I prefer to allocate and reserve 500 units for delivery in 4/5 weeks.

In the meantime, in order to validate your alternative, we would require some Technical data sheet, that could be validated by Engineering dept.

Then, could you pls send me a proforma invoice for these 500 O2 sensors, we will make this operation thru our other company XIDEM, in order to place orders with payments in advance.

Thanks a lot.

Hi Martha

I am sorry to say that I can not supply any of our current stock as it is allocated for current customer requirements.

We should be able to supply 200 in 4 weeks, would this be ok?

Dear Martha

Thank you very much for your enquiry.

As I am sure you know, the pandemic has had a negative effect on stock and supply of O2 sensors. Unfortunately we do not have enough free stock to supply you the 500x R-17MED immediately. We could

aim to deliver in 4-5 weeks, would this be acceptable?

If so, we will arrange to send you a proforma invoice and we will take the necessary steps to allocate sensors for you.

I look forward to hearing from you.

Best regards

Ryan
