Hi Jumah,

Thank you for your reply.

Do you require 2 x 0110021 (\$37.75) (singles) or 0110072 (\$75.50) (pack of 2), both are in stock.

Many thanks.

Kind regards

Kate Griffiths

Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.

Good morning Jusbah,

Please see attached proforma invoice as discussed with Ryan.

Please let me know if you require any changes to be made, eg. addresses.

The proforma invoice is valid for 30 days and the payment details are at the bottom on the left hand side.

Many thanks.

Kind regards

Kate Griffiths

Hi Kate

It is for 2x R-49V. Unfortunately we do not have a suitable sensor for line 2.

Thank you

Dear Ryan
Many thanks for your support,
I would purchase the following:

1. **R-49V - part no. 0110049 QTY = 2**
2. **oxygen sensor for hamilton ventilator type : C1 C2, C3,C6,T1,MR1 QTY 2**

Those items are samples for evaluation, as I will handle their costs.

Best Regards

Hi Jumah

Ventilators do not normally require a matched pair of sensors, this is something that would normally be used in incubators where they are using two sensors that have to have nearly the same output.

If your customers are confident they require the R-22MEDV, then you can still purchase these as a single sensor:

R-22MEDV - part no. for single pieces 0110021 = USD \$37.75 each EXW

If you are supplying the sensors for use in incubators, then you should consider the R-22Vi Matched pair, these have been specifically designed for use in incubators:

R-22Vi - 0110072 = USD 75.50 / pack of 2 sensors EXW

I am sorry to add more confusion, but if you need the sensors for the Hamilton ventilators you listed (G5/S1,GALileo,raphael), then I would recommend the following sensor:

R-49V - part no. 0110049 = USD \$37.75 each EXW

Please let me know if you have any questions.

Best regards
Ryan
