Hello Sarah,

Regarding our needs, we would like to plan an order of 100 cells, to be delivered before the 17th of December, but from production label 2021-12.

The idea is to have a sufficient stock of cells before Christmas closing with 2021 12 cells, because in January we have straight the dive shows and it is difficult to collect the deliveries, especially if we want to bring some to dive shows.

Do you think it is possible ? please find the order form attached.

Have a nice day

Patrice

Objet : Sensor requirements

Dear Patrice,

We are planning production over the next few months, especially with the Christmas period coming up. I wanted to ask if you will be requiring sensors in December and January?

Kind regards

Sarah Walton
