Hi Sarah.

Thanks for your mail and sorry for my late answer.

I believe I have 600 sensors in order for November and 600 for December is that correct.

It does look like we are not sending out as many sensors as we thought we would do, means we have still sensors left from October here.

Is it possible that we of course have the 600 that is planned for November and then instead of 600 in December only have 400 in December and then 400 in January.

Kind regards

Jan Petersen

Dear Jan,

I hope that you are well.

We are planning production for the next few months, so I wanted to ask if you will be requiring sensors in January and February?

Kind regards

Sarah Walton
