Hi Danil

Please see an example of how it would look on the invoice, the traffic code may cause you some trouble if you do not have the device registered:

Hello.

Wire transfer will be OK.

Can you specify something like a "plastic air sensor" in the transport invoice? Please do not write "Medical" or "flow sensor for ventilator".

Hi Danil

Thank you. Unfortunately we do not accept international payment by credit card, the payment would have to be by bank transfer. There is an issue I need to discuss with you, Italy required registration for medical products and without it you may encounter importation problems. I am not aware of any registration on our flow sensors, is this something you can take care of?

Best regards
Ryan

Dear Danil

The pricing I sent to you is for a pack of 5 sensors.

Please note that although the Flowsensor Apc is autoclavable, they still require replacing when calibration is no longer possible. This could be after a few days or a few weeks.

Best regards
Ryan

Could you please check prices for SpiroTrue Apc - 4310002 (box of 5 sensors) in your offer?
Is the SpiroTrue Apc sensor sold in boxes of 5 pcs, not each? Do you offer a price per box?

No problem with the private address, but the payment would have to be made by bank transfer, we do not accept card payments.

Hi Danil

We can supply the sensors to Italy, as they are CE certified. We can not supply to the USA, as we do not have FDA registration.

Please find some information attached, I would like to know your approximate requirements so we can quote accordingly? Please can you let me know if you prefer USD or EUR?
