MySign® O certification on new regulatory standards

Dear valued Customer and Partner,

We are pleased to inform you, that the EnviteC oxygen monitor MySign® O is now certified on the latest product standards.

With immediate effect, CE marking and FDA approval for new products require the application of the standards listed:

- **ISO 80601-2-55** / Medical electrical equipment: Particular requirements for the basic safety and essential performance of respiratory gas monitors
- **IEC 60601-1** / Medical electrical equipment: General requirements for basic safety and essential performance

Why should you include MySign® O in your product portfolio

MySign® O measures and monitors the oxygen concentration in the breath gas of ventilated patients

- ✓ Small, light weight and ergonomically
- ✓ Extremely robust in all application areas – impact and water resistant housing
- ✓ Universal mounting concept – quick and easy attachment to rail systems, beds, IV poles and tables
- ✓ Intuitive user interface – rotating TFT display – backlit keypad and display
- ✓ and even more values ...
