Good afternoon Kate,

Please can you keep this as an order for delivery December, possible January.

I have sent on a separate email to not confuse PO numbers a new order for the sensor's you have in stock.

Kind regards,

Grace

PLEASE NOTE BOSTON HAS MOVED PREMISES. OUR NEW ADDRESS IS:

Boston Garage Equipment, Beckingham Business Park, Tolleshunt Major, Essex, CM9 8LZ

Please update your records accordingly, thanks!

Good morning Grace,

Further to our telephone conversation just now.

The R-22A would have a lead time of approximately mid December at the earliest. The R-22AV is currently in stock. Your company last purchased the R-22AV in 2009. They both cost £22.60 each, with £10 carriage.

Both sensors are Teledyne, the R-22AV has a more finely tuned output. Also, the R-22AV is an alternative Teledyne sensor with a slightly higher output at the bottom end and the same output at the top end, ie 9-13mV for the R-22AV versus 7-13mV for the R-22A,

This sensor should work in the same devices that the R-22A works in without any problems.

I await a call from your colleague for how to proceed with your order.

Many thanks.

Kind regard

Kate Griffiths

Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.
