

Product Modification - Labelling

Part number: 0310030

Model: **Tom Thumb TT480**

Problems with the current laminated paper version 'CAUTION' label:

- a) Does not look professional and is easily damaged physically and if moisture seeps through the edge of the cut lamination.
- b) Time consuming and expensive to manufacture.
- c) Vertical positioning only applicable to one customer.
- d) Possible sharp lamination edges.

New version label:

- a) Easy to apply and cosmetically looks in keeping with the product.
- b) Easy to clean, not easily damaged by moisture.
- c) Low cost – no labour costs.
- d) Positioning more appropriate during actual usage.
- e) Litres per minute quantity increased from 10 to 15 to be in line with the operating instructions.

New labelling (part number 0390018) implemented as of 14/02/11.

Label produced by **Pendle Signs & Plastics**
