Good morning,

After checking with a director, he has confirmed that we are unable to use the tariff code you require, **we have to use 901920900**, this code is zero rated and is for parts and accessories. We are unable to change the description of the sensor on any paperwork, so please disregard the copy delivery note sent previously.

Please let me know if you would like me to proceed with your order.

Many thanks.

Kind regards

Kate Griffiths
