Hi Ryan,

Here is a PO for the CO2 lines as discussed. I have reduced the number of 4420815 from 15 to 5 due to the shelf life. Can you ensure these 5 are sent with the May expiry date please.

Let me know how we can proceed with the remaining 10 x 4420815 boxes.

Many Thanks for your help!

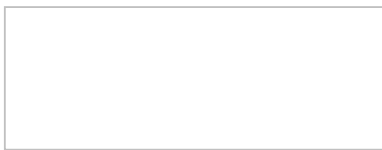

Regards

Robert

Sorry Robert, I'm away at the moment. I'll be back on monday and I can see what i can do for you then, if that's okay. I understand the issue with the dates.

Best regards

Hi Ryan,

Did you manage to get an answer to below? With the current expiry date I will order 5 instead of 15 and wait until we know about further stock with longer shelf life. The only other option is I offer the customer a special price for short shelf life?

Hi Ryan,

Do you know if you will be receiving stock of 4420815 with a longer shelf life? I need 15 boxes but even May is very short? Would there be any additional discount for the short shelf life units?

Can I ask what the shelf life relates to?

Hi Robert

I do not currently have a dealer price list for these items in GBP, I don't think we currently have any UK based distributors for these products other than yourself. I have listed the GBP distributor and end user pricing below:

4420821 = £108 / £160

19x available from stock

Use By Date: 2024-12

4420815 = £52.80 / £88

45x

available from stock

Use By Date: 5x 2022-03, 40x 2022-05 (is assume the march ones may not be acceptable)

4420813 = £120 / £200

Not available from stock, approximate delivery 6-8 weeks

4420921 = £84 / £140

11x available from stock

Use By Date: 2024-03

4420915 = £48 / £80

not available from stock, more stock expected at the end of January

4420913 = £108 / £180

9x available from stock

Use By Date: 1x 2024-03, 8x 2024-09

Best regards

Hi Ryan,

Happy New Year to you!

I will be ordering some more Versastream CO2 lines shortly but wanted to check in that you are OK with supply/Stock? I have had some customers on with me looking quotes for the microstream version too? Are you able to supply these at the moment also? Just one small note , the last batch we received had a short shelf life (March 2022) and we have had some customers refusing to take them. What should we expect for a normal shelf life??

Best regards
