Hi Rob

Thank you for your email.

The trade price for the TEK-OX complete is £129.25 each EXW. If you purchase 2x then the price would be £114.75 each EXW (exVAT + P&P)

We still supply sensors for the MixChek:

O2 sensor - R-33S1 = £35 each EXW

Helium sensor - It is unlikely that this needs replacing, it may just need a thorough calibration. I have attached some calibration procedures, please try these first, if they do not work, then we will need you to send us the device, as the helium sensor needs pairing to the firmware.

Best regards

Ryan

Good afternoon,

Please can we have a price for a Tek-Ox with Quick Ox (Auto Switch-Off) ?

Also do you still sell O2 cells and helium sensor for the Vandagraph Mix Check (trimix analyser in yellow case)?

Our account is in the name Richard Stevenson, Waterproof Media.

Many thanks,

Rob
