Dear Kuldeep,

Thank you for your email. I can confirm the price quoted by my colleague Zoey is still valid - would you like me to put together a Quote or Proforma Invoice?

Kind regards

Sophie Lines

Dear Kuldeep,

Please accept my reply.

Storage life of Teledyne oxygen sensors: The useful life of a sensor depends upon concentration of oxygen. If it is left inside the sealed gas barrier bag, its life expectancy should only deteriorate by 1/20th of its in air life per year. A shelf life of 1-3 years can be expected if sensors are stored correctly. The special gas barrier bag allows only a negligible amount of oxygen or moisture to pass through. It is not recommended that sensors are stored longer than absolutely necessary for warranty purposes. Sensors should retain 90% of their useful life after 24 months in the gas barrier bag.

The best pricing we can offer is our distributor price which is \$34.50 each.

If you have any further queries, please do not hesitate to contact me.

Kind regards

Zoey Teal

Dear Kuldeep,

Thank you for your interest in our product.

We do not currently have a distributor in India - we would be happy to supply you. Please let me know how many R-17MED Oxygen Sensors you are looking for, and I can send you an official quotation or proforma invoice.

Kind regards

Sophie Lines

Hello

Myself Kuldeep Singh from Tatva Inc Faridabad India

We are interested in your R-17MED Oxygen Sensor.

Do you have any distributor/dealer partner in India ?

Regards
