HOLE POSN. TOL. $\pm$

SPECIAL COLOUR MATCH - SAMPLES ATTACHED

IMPORTANT: Most colour standards use white paper as the base material. Printing on metal or plastic will change the shade and reflectivity. Your acceptance of our sample is required before we can proceed.

Please return this data sheet, signifying your approval below, in order that production may proceed and that the correct specification can be recorded in our records for later use.

IMPORTANT. We cannot accept responsibility for errors which are not rectified at this stage.

Additional work done at customer request will incur added cost.

Please sign only if the Proof and Data has been checked and approved.
