Cathy, as discussed.

Looks like they are all >9mV anyhow.

So, the order needs editing, change from R-17AV to R-17A please.

Hi Piotr

Friday's Teledyne shipment arrived this morning, but unfortunately did not contain any R-17AVs.

R-17A 7 - 13 mV
R-17AV 9 - 13 mV

An emergency alternative could be to use R-17A sensors which have QA tested outputs >9 mV.
Would this help at all?
