MaxBlend 2 that was sold 11/3/2020 when they were Capital Air Ambulance, still under warranty.

Says it is leaking and is emptying their cylinders, I have explained that this device will vent at 0.1L/min when connected to gas and gave him a few things to do to check for leaks.

This may not be faulty, if it comes back, please check for additional leaks and quote before carrying out any work.

27/Jan/2022 Steve Hardaker

Spoke to him again, he reports losing half a cylinder in 20 mins and a lot of gas leaking. Please check for leaks and quote for repair.
