Hi Mohan

I am sorry to say it will depend on sales as to when we will order more, it could be a month or two, but I can't be sure.

Best regards

Ryan

Hi Ryan,

When are you expecting new lot of sensors, so that we can take few now and remaining from the new lot when it comes. We face issues with Government Hospitals who refuse more than one year manufactured sensors. Even though you extend 24 months warranty.

Thanks

Mohan

Subject: Re: MAX-250 Oxygen sensors - Lead time

Hi Mohan

I am sorry it is not a typo, the stock we have was manufactured late 2020, but this does not affect the warranty period. The sensors have a gas barrier tape over the sensor face to prolong the life prior to being put into use.

I am sorry we missed Arab Health, I will definitely try to make it next year. I am glad to hear that it was well supported, it is good news for us all.

Best regards

Ryan

Dear Ryan,

We missed you at the Arab health this year. The number of trade visitors were good.

Regarding the oxygen sensors MAX-250 – Part No. 0110425 the manufacturing date is more than a year. Do you have latest ones, since hospitals refuse most of the time to accept more than one year from manufactured date.

End of 2020 you mentioned, hope it is not a typographic error by any chance and should be 2021?

Thanks and Best Regards

Mohan
