Hi Tomas

I apologise for our late reply.

Unfortunately we do not supply the suction jar filters you are looking for. I am sorry we can not be of more help with this.

Please find the selection guide and pricing attached for the Oridion compatible sampling lines. We carry some of the lines in stock, but others are manufactured to order and unfortunately we have to add a minimum order quantity to these items. If you can let me know which items you are looking at ordering, I will look into the stock situation and get back to you.

Best regards

Ryan
