No, what I am proposing is to ship 16 in order to close the current orders/replacements and we have an additional 11 that you could take, so 27 in total.

Steve, arent the 11 sensors already paid? In fact, 16 sensors are already paid and you will ship 11 of them.

OK, do you want to process pro-forma payment for the 100 sensors and we will call off 11 sensors from this?

Hi Apostolos

There are 16 to replace, 14 of which we will replace with new and the other two are ones that you had before where the connectors had been damaged.

As discussed the other day, I need more UFO sensors and I am chasing production. I'll let you know as soon as I get them.

All we have is 11 unallocated sensors, would these be of use to you?

Hi Steve, do you have any updates on the following items:

- a) How many sensors are pending from the previous order that needs to be sent to us?
- b) I would like 180 more O2 sensors. When could I expect them?

Regards,

Apostolos
