Hi Kate,

Sorry for the late reply, I am catching up on all my emails, can I have a proforma invoice for 3 of the sensors please?

I hope you had a great Easter weekend!!

Best wishes

Good morning Marnie,

Thank you for your reply and VAT exemption certificate.

Please see attached proforma invoice for 1 x R-23V.

We do accept payment by card, I would need your telephone number for my colleague Cathy Green to contact you to take payment.

If you are happy with the proforma invoice, please let me know and I can change it to an order and ask Cathy to contact you for payment.
(I was unable to fit all of the address on our system, I hope what I have included is enough for safe delivery).

We usually try to ship the day of payment, or the day after, but with a Bank Holiday coming up it is harder for me to be definite.

I await your reply.

Many thanks.

Kind regards

Kate Griffiths

Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.

Hi Kate,

Would you take card payment? I have attached the VAT exemption cert and the invoice details are below.

The invoice address is:

Newcastle University
PO Box 268
SHEFFIELD
S981QY
United Kingdom

Best wishes

⚠ External sender. Take care when opening links or attachments. Do not provide your login details.

Good afternoon Marnie,

Thank you for your enquiry.

The price breaks for the R-23v oxygen sensor, part number 0110023 are as follows:

1 = £ 42.00	2 = £ 40.00 each	3 -10 = £ 38.00 each. 11 or more = £ 36.00 each
-------------	------------------	---

Carriage is free for medical oxygen sensors and all prices are excluding VAT. This item is currently in stock.

Please let me know if you require a proforma invoice - I would need your invoice address to set up a new account for you - or if you require any further assistance.

I would also need a copy of your VAT exemption certificate.

Many thanks.

Kind regards

Kate Griffiths

Hello,

I hope this email finds you well.

I am a research technician working at Newcastle university in the Transplant regenerative medicine laboratory. We perform lung perfusion research and need a quote for a VAT exemption certificate and delivery would be to the address below.

19/04/2022, 17:09

Gmail - Fwd: Evita 2 Dura ventilator oxygen sensor

I was hoping for a quote for an oxygen sensor. The current sensor is a R-23V SN: V117206. The date on the sensor is 2017 so this particular part may no longer be available or it in an Evita 2 Dura ventilator.

Best wishes
