Hi Kate.

You can use the following address for both invoice and delivery:

Department of Chemical Engineering
The University of Manchester
C72 The Mill, Sackville Street
Manchester M13 9PL
+44 161 306 4370

Best

Ashwin

Hi Ashwin,

Sorry, I do need your invoice and delivery addresses too in order to set up an account for you.

Many thanks.

Kind regards

Kate Griffiths

Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.

Hi Ashwin,

I would be happy to provide a quotation for 4 x 0110021.

I would just need your invoice and delivery addresses and VAT number in order to set up an account for you.

Many thanks.

Kind regards

Kate Griffiths

Hi Kate,

Many thanks for the quick response.

I just had a question. Would it be possible for you to provide the quote on an official letter head? I would need the quote for 4 pieces. I would have to provide this to a funding agency. Thanks in advance for your assistance.

I will be placing the order in the coming weeks.

Best

Ashwin

Subject: Re: Oxygen sensor enquiry

Good afternoon Ashwin,

Thank you for your enquiry.

The price breaks for part number 0110021 - R-22MEDV are as follows:

1 = £ 42.00	2 = £ 40.00 each	3-10 = £ 38.00 each	11 or more = £ 36.00 each
-------------	------------------	----------------------------	---------------------------

Carriage is free for medical oxygen sensors (UK mainland) and all prices are excluding VAT.

Please let me know if you require a proforma invoice, if so please could I have your invoice and delivery addresses and VAT number?

Many thanks.

Kind regards

Kate Griffiths

Subject: Oxygen sensor enquiry

To: sales@viamed.co.uk <sales@viamed.co.uk>

Hello,

This is Ashwin Rajagopalan, Lecturer in Chemical Engineering at the University of Manchester. I am writing a research proposal to put together a gas adsorption system in my laboratory to perform air separation. For this, I have identified an oxygen sensor. Last year, some colleagues of mine and I purchased oxygen sensors from Viamed to be used in a similar setup. We were very happy with the performance of the sensor. So, I would preferably like to have the same. I would really appreciate it if you could kindly provide me a quote within a day or two. The sensor is:

1. Viamed Oxygen Sensor R-22MEDV – 4 pieces

Please let me know if you need any further information from my side. Thanks in advance for your assistance.

Best

Ashwin
