Thank you Dimitrios

It sounds like we will receive a small batch of sensors today/tomorrow, so we will assess and advise accordingly.

Hi Steve,

Thank you for your reply. Yes, please generate pro-formas as we go along based on the quantity of sensors that are available in stock.

The information about the testing charge of €2.00 per sensor is also noted.

Best regards,

Hi Dimitrios

At the moment we do not have 250 sensors within your required output range, so it could take some time to build up to this quantity.

I propose that we log your order, but generate pro-formas as we go along based on quantity of sensors that are available in stock.

As discussed last week, I will also add a testing charge of €2.00 per sensor.

I'll provide an update in a few days if we have any sensors within your required range

Regards

Steve
