Hi Andrea

Sorry, I don't know anymore at the moment, I will find out for you in the coming week. One of our engineers has gone off to get married and the other is really busy, but I will try and sneak them in for you.

I am very well thank you, I hope you are too.

Please find your order confirmation attached. I know that in the past we kept the sensors under quantities of 30 for customs purposes. Please can you confirm if you are happy to receive 30x on this order before I put them into production?

I will await your reply.

Hi Andrea

Thank you for your understanding. I can confirm I have put your order into the queue. We do not have any stock at the moment, so it may not help having a part shipment, but we can address this when we have the base sensors in stock ready for production.

We would be happy to accept CC payment, but we can do this once your order has been dispatched. Just let me know once you receive dispatch confirmation and we can then take the details from you.

Best regards

Ryan

Hello Ryan

I know the issues with all production and delay problems, I like to hold the order. Thank you very much.

Maybe you are able to send me 10 pieces for the first time? This will be helpful. Shall we make a payment by Credit Card? Think we did this last time and it will be the best solution for both of us.

Hi Andrea

I apologise for the delay in my reply.

Please find your quotation attached. Unfortunately we are short on the base sensor and so the estimated delivery would be the middle of June.

Please let me know if you would like to proceed with the order or if you require any amendments.

Hello Ryan

Please reduce the quantity- we need 28 pieces- otherwise the customs will cause problems because it's over 1000 Euro. So we will order only 28 pieces- in total it will be 833 GBP- plus shipping it will be ok for us.

Please find your order confirmation attached. Please confirm if we should proceed?

Please can you provide your company EORI number? Sometimes this is the same as the VAT number, but I thought it better to check.
