Subject: 8010007 & 8010008 oxygen sensor pricing

Dear John

As you know we have kept our pricing stable for a very long time, way back to when the sensors were released in May 2011. However, we have finally had to succumb to all the recent unprecedented increases in costs. We have limited the pricing increase as much as possible, even though some of the recent cost increases have been excessive.

The attached new pricing will not affect existing orders and will come into effect on the 9th July 2022.

Kind regards
