

**Packaging Trial & Validation**

The following should be checked:

- The unit being sent is to the specification as detailed on the official order.
- The instructions for use and cleaning instructions are included.

Packaging:

- The Units are delivered, by courier, from “Boplar” wrapped in Bubble Wrap.
- The units are then re-packed individually in a cardboard box, together with a pack of four AA Batteries.
- The units are then place in a cardboard box with airbags surrounding – applied with use of the Specific airbag machine.

Delivery:

- For single and multiple orders – Despatch is via an applicable courier with adequate insurance.
- For use with an Infant Resuscitation Cabinet, the boxed unit is supplied inside the Cabinet. The whole is then palletised, strapped and shrink wrapped.
- Alternative Delivery is via a Hospital visit by a Sales Representative.
