

## Re-work Risk Analysis Report

<b>Product: Mixcheck</b>				
<b>Can the product be impaired by re-work</b>			Y	
	Mechanical		Y	N
The screws on the front panel can damage the threads. The front panel can be scratched and dented		Metal Fatigue	Y	
		Visible damage to product	Y	
		Bends	Y	N
		Dents	Y	
		Scratches	Y	
	Electrical		Y	N
		Visible joints		N
		Dry joints	Y	
		Added components		N
		Piggy back components		N
	Heat			N
		Visible scorch marks		N
		Damage to heat sensitive components	Y	
		Insulation shrinkage		
<b>Will re-work shorten product life</b>				N
<b>Will re-work reduce specification</b>				N
<b>Will re-work reduce any safety factors</b>				N
