Hello Ryan,

I sent you an email reply last week, but it is not showing up in my sent items. Therefore resending it to you, as I am not sure whether you received it or not:

Many thanks for sending your proforma and trade list. Could you please add one R-17 VAN spare O2 sensor and include it in a final proforma. I prefer to have one ready in case there is a failure with one of the new analyzers' sensors.

We have no zip codes in Lebanon, but UPS will deliver to the address I sent you before, just make sure to include my phone number please.

Regarding payment, is it okay if I give you my visa cc details over the phone?

Regards

Mohamed Kabbani
