Hi Steve,

Please proceed to cancel the order AEP02012.

Thanks,

Cameron Billingham

**Subject:** Re: [EXTERNAL]: Adapters for oxygen tubing

Hi Cameron,

It's the clear adapters that are the problem; they are not CE marked and cannot be sold within the UK or EU.

If you can confirm in writing that you wish to cancel the order ref. AEP02012, I will forward that to our sales office.

Regards,  
Steve

Hi Steve,

Thank you for coming back to me, unfortunately we took a look at the alternative and it wouldn't be suitable for the purpose of what we use it for. Is it at all possible to obtain just the tubing?

If not I'll have to cancel the current open orders.

Thanks,  
Cameron Billingham

Hi Cameron,

Further to your conversation today with my colleague Zoey regarding oxygen adapters, please find below some previous emails on the subject.

Unfortunately, the perfusion adapter kit is no longer available in the UK or EU as it no longer carries a valid CE mark; this is down to the clear adapters, not the blue T-piece.

The only alternative solution that we can offer is the green adapters in the below email; the adapter with the barbed taper will fit into one end of the blue T-piece but the other end straight connector.

Please could you advise how you would like to proceed with regards to that order?

Thanks in advance and I look forward to hearing from you.

Good afternoon,

I am contacting you with regards to Purchase Order AEP02012, which we received today.

This PO contains part number R103P90. Unfortunately, this item has been discontinued as it no longer carries a valid CE mark as per my email below.

In that email, I highlighted possible alternatives that we can supply. Please can you review that information and if you wish to order the alternative revised purchase order to our sales team at [orders@viamed.co.uk](mailto:orders@viamed.co.uk), thank you.

If you have any queries, please let me know.

Regards,

Steve Hardaker

Hi Neil,

Just a quick follow up on the connectors that I highlighted in my previous email. Are these of interest or have you managed to source an alternative?

Regards,

Subject: Purchase Order AEP01835 to Maxtec

To: Neil Flanagan <[Neil.Flanagan@spectrummedical.com](mailto:Neil.Flanagan@spectrummedical.com)>

Hi Neil,

I have been forwarded your enquiry by Maxtec as Viamed represents Maxtec in the UK.

I understand that you were hoping to order the perfusion adapter set, p/n R103P90. Unfortunately, this item is no longer available in the UK or EU carries a valid CE mark.

We do have an alternative solution to the problem of connecting a 22mm T-adapter into 6mm I.D. oxygen tubing it's not quite as simple as the orig uses 3 adapters connected to the T-piece instead of 2 but it will allow you to connect to oxygen tubing.

The solution is to use 2 x 22mm OD to 6mm adapters (p/n 0120127 below left) and a 22mm I.D to 22mm I.D. connector (p/n 0120125 below midc connection to the T-piece (below right).

I hope that you can visualise this as I don't have a picture of the arrangement but the end result is:

- 22mm O.D. to 6mm adapter > blue T-adapter > 22mm I.D to 22mm I.D. connector > 22mm O.D. to 6mm adapter

The parts are available as follows and we have both in stock:

- 0120127 - 22mm O.D. to 6mm adapter @ £1.60+VAT each (2 required per set-up)
- 0120125 - 22mm I.D to 22mm I.D. connector @ £1.25+VAT each (1 required per set-up)
- 0120399 - T-adapter, 22mm I.D. - 22mm O.D. (pack of 5) @ £25.00+VAT

Carriage would be dependent upon the weight and value of the packaged goods, but no more than £10.00+VAT for UPS.

Will this setup meet your current requirements? I look forward to hearing from you.
