Hi Gregory,

Thank you or your reply - please be aware if you would like us to part ship the R-49V sensors ahead of receiving the MAX-250+, we would have to charge carriage on each shipment - please let me know if you are happy to go ahead, and I can arrange for the R-49V sensors to dispatch tomorrow.

Kind regards

Sophie Lines

Dear Gregory,

Thank you for your email.

Unfortunately it is still not good news, as we are still waiting for stock of both items on your order. We are expecting part number 0110427 (MAX-250+) in approximately 2 weeks.

With regards to part number 0110024 (R-24MED) there is a parts supply chain problem, so production is expected to be delayed for the immediate future. It would be prudent to consider switching to the R-49V 0110049 for the time being, as it is an equivalent sensor which should meet your needs, and it is available in stock.

Kind regards

Sophie Lines

Good morning Gregory,

Further to the email from my colleague Sophie, this email is to update you regarding the availability of the R-24MED (0110024) from your order from June 6th..

The estimated date for this stock to become available has passed and **we have been unable to obtain a lead time for the R-24MED.**

We can offer the alternative sensor, the R-49V, part number 0110049, I have attached a specification sheet.

Would you like me to change your order to 10 x 0110049? The price is 36 euros each. As you are aware, we are also awaiting stock of part number 0110427

I await your reply. I apologise for any inconvenience this may cause.

Many thanks.

Kind regards

Kate Griffiths

Viamed is now enacting a coronavirus contingency plan to allow sales and admin staff to work from home, and I am now working remotely. Telephone calls to the main office will be answered remotely, but please continue to use email where possible.

Dear Grégory,

Please find attached your Proforma Invoice as requested.

Unfortunately we do not have stock of either product at the moment, so there would be a lead time of approximately 3 weeks from receipt of payment.

As an alternative to the R-24MED, we could offer the R-49V as an equivalent sensor- these are available in stock for immediate dispatch. Please see details of this sensor attached and let me know if you would like me to amend the Proforma invoice?

Kind regards

Sophie Lines

Dear Gregory,

Thank you for your email. Please note that Sarah no longer works at Viamed Ltd.

I can confirm we can supply the MAX-250+ oxygen sensor. Our part number is 0110427 and they are 75.85 Euros each. There would be a lead-time of approximately 3-4 weeks.

The R-24MED sensors are 32.75 Euros each - we are awaiting stock and the lead time would also be approximately 3-4 weeks.

Please let me know if you would like me to send you a Proforma Invoice?

Kind regards
