POSEY Pulse Oximetry Sensor Wraps

The Posey pulse oximetry sensor wraps replace adhesive tape to secure all models of flexible optical transducers or probe sensors. The wraps hold the sensor firmly to prevent misalignment of optical components, whilst blocking out excessive ambient light. The soft foam tape-less fastener does not stick to the skin, allowing for easy application and removal; this also helps to preserve delicate skin. The model ref. 6554 is a universal design and may be cut to length, the model ref. 6554P (premie) has been specifically designed for neonatal applications.

P6554 Width: 30 mm, length: 140 mm, thickness: 5mm

P6554P Width: 20 mm, length: 100 mm, thickness: 5mm
