Hi,

Thanks for this info. Would you be able to quote us including any carriage that may apply for 1x control knob for the Microstim DB3?

Cheers.

Thank you for your email.

Unfortunately, we do not sell the DB1000 anymore and these have been discontinued.

You also mentioned the DB3 as your subject.

The Microstim DB3 was discontinued in May 2019 but Viamed will continue to supply spare parts and service for a minimum of 7 years, up to 2026.

We have a replacement device: the TOD 3D Neuromuscular Transmission Monitor, which is considerably higher spec and offers far more functionality than the legacy Microstim range. I have attached some information for reference.

If you have any further queries, please feel free to ask.

Hi,

Hope all is well. Please can you advise whether the above model is obsolete. SN- EJ67086488
Cheers.
