Please add as category 8 pro-forma order from Xhale (250 x 0110081), so that we can temporarily log/have the order on record for reference.

Once we have a reasonable batch of suitable sensors we can generate a separate pro-forma to include UPS Express Saver shipping (PPUPS7) and also add a per sensor testing charge (0140060). Tomorrow I'll add the price for 0140060.

The Category 8 proforma can then be reduced by the batch quantity invoiced until all 250 have been delivered.

Let me know if you have any questions.

Xhale have a requirement for sensors within a particular output range, that is why we carry out the additional sensor testing for them. This is not covered by the standard specifications.

Steve

Hi Dimitrios

At the moment we do not have 250 sensors within your required output range, so it could take some time to build up to this quantity.

I propose that we log your order, but generate pro-formas as we go along based on quantity of sensors that are available in stock.

As discussed last week, I will also add a testing charge of €2.00 per sensor.

I'll provide an update in a few days if we have any sensors within your required range

Regards

Steve

Dear Steve,

I hope my email finds you well.

We would like to order the Teledyne FINAL ASSY SENSOR UFO-130-2 in **250 units**.

Shipping: Express Saver

Please, send me a proforma invoice for this order at your earliest convenience. Please also inform us about the ETA and proceed with partial shipments.

Thank you for your time and efforts.

I remain at your disposal for any further information.

Best regards,

Dimitrios
