-------------------------------	------------------------------------------------------------	---	---	---

Standard practice when customers return products for service is for the products to be cleaned and decontaminated prior to shipment.  
 The returned V1000 foetal heart simulators have clearly not been cleaned.  
 As a matter of health and safety we have deemed it necessary for the units to be cleaned and disinfected before carrying out any servicing, therefore we have levied a charge accordingly for carrying this out.
