-------------------------------	--	---	-------	------	-------

Standard practice when customers return products for service  
is for the products to be cleaned and  
decontaminated prior to shipment.

The returned V1000 foetal heart simulators  
have clearly not been cleaned.

As a matter of health and safety we have deemed it necessary  
for the units to be cleaned and disinfected before carrying  
out any servicing, therefore we have levied a charge accordingly  
for carrying this out.
