Dear ,

### Introduction of the R-22Vi Oxygen Sensor

Viamed introduced the R-22MEDV as a pack of 2 sensors for use in incubators in 2011. However, we have now made **significant improvements** and are proud to announce the introduction of the R-22Vi pack of 2, part number 0110072 into the range. The R-22Vi matched pair has been developed to have a longer operating life in higher temperature environments, such as in incubators.

Viamed's range of Medical Oxygen Sensors provide the **Widest Range** and the **Latest Technology** to allow you to get the best value for money when using OEM and compatible oxygen sensors.

Viamed provides an oxygen sensor **quantity discount pricing** structure, there is **no minimum order value** and **free of charge delivery** is offered on our **entire** range of oxygen sensors. I am sure you will find that this makes ordering easier and provides an extremely competitive package on quality, price, delivery and support.

Please find enclosed full details on our oxygen sensor range including price list. Should you require further information on applications and compatibility, please visit our website – [www.viamed.co.uk](http://www.viamed.co.uk).

Should you wish to place an order, or cannot find your oxygen sensor or equipment listed on the online cross reference, then please contact a member of our sales team on:

**01535 634542**

(Between the hours of 09:00 and 17:30)

Yours sincerely
