Hi Peter / Axel

Please see the email below (picture attached) which I originally sent to Bernd and Jens. Would you also need such a hose and connector.

Steve

Hi Bernd / Jens

Please see the attached picture of fittings that I suggest supplying to Sensatronic. Can I assume its OK to send direct to Jens?

Jens wanted a connector to fit on to the small pressure chamber. I thought it would be better to supply the connector together with a secured hose, it can be used as is or the hose can be removed.

So how many connector/hoses are needed, just one? The hose is 120 cm long.

Do you need any of the mating connectors?

In the office I currently have three sets.
