Hi Steve,

Thank you for forwarding these details on to my colleague Ryan.

Would it be possible to get a quote for the Low Flowrate MaxBlend2 with 0-3 LPM Display R229P01-011. This is the specific item we would be looking to progress.

Kind Regards,

**Charon Orjela**

**EXTERNAL**

Hi Ryan,

Further to my email below regarding the MaxBlend 2 blender with integrated oxygen monitor, is this something that you are still interested in?

The MaxBlend 2 is available in High-Flow (up to 70 L/min) and Low-Flow (up to 30 L/min) versions, I have attached a datasheet for reference.

If you have any queries, please feel free to ask.

Regards,

Steve Hardaker

Hi Ryan,

I am contacting you following your enquiry to Maxtec regarding the Maxblend 2 air/oxygen blender with integral oxygen monitor. Bob Kalish forwarded your enquiry to me as we distribute Maxtec products in the UK.

The Maxblend 2 is available in various configurations, so I would like to have a chat with you about your requirements, in particular the application that you have in mind so that I can work to offer you a complete solution to fully meet your needs.

Would you be able to give me a call or drop me an email with your phone number so I can call you? I look forward to hearing from you.

Regards,

Steve Hardaker
