**Current delivery situation: hard foam PE10 021**

Dear Mr. Nixon,

W.AG Funktion + Design GmbH is your partner for modern and high-quality case solutions "Made in Germany" with individually created and tailor-made foam inserts for your requirements and products.

Due to a change in the range of one of our main foam suppliers, the delivery situation for the rigid foam PE10 021 has changed. This is therefore only available on the market until calendar week 19.

In close consultation with our foam suppliers, we have identified an alternative foam material and hereby offer you an **alternative hard foam PE10 018**. Please find attached the material data sheet for the hard foam PE10 018. Upon request we will gladly send you a sample for assessment and approval.

In order to plan future orders from you that are affected by this change, we ask you to:  
Please check the material data sheet of the foam PE10 018 and give us, if appropriate for you, your approval for the use of the material. In the instance that you would like a sample of the material PE10 018 prior to making your decision, we will send you one.

Please do not hesitate to contact us if you have any questions or to discuss further proceedings.  
We apologise for any inconvenience caused surrounding the situation caused by external factors and we hope that you accept our selected method of resolution.

We look forward to continuing our collaborative partnership and successful cooperation.

Best regards  
W.AG Funktion + Design GmbH
