BlenderBuddy 2

A compact and clean addition to your blender

- DFB Dual-Scale Flow Meter
- Built-in Oxygen Port
- DISS outlet connection

The BlenderBuddy 2 equips your blender with the Maxtec DFB (designed for blenders) dual-scale flowmeter and has a built-in oxygen port, which allows gas to be analyzed safely and away from the patient to avoid cross-contamination. It securely attaches to your blender using the DISS outlet connection.

The BlenderBuddy 2 also has a micro bleed, which reduced the amount of wasted gas by more than 15 times previous versions.
