Hi Ryan

I hope this finds you and the rest of the team at Vandagraph in good form.

Please find attached floor plans and documents for EUROTEK.2018 and here is a link to the photo gallery for the Rep. (EUROTEK.2018's venue).

<https://bardocreative.zenfolio.com/p84206470>

We have moved for a number of reasons, including wanting to hold prices, ie not introduce a price increase. The Rep is located about 10 metres from the front door of The ICC.

The date has moved too - this year it will be 1 and 2 December 2018.

You will see there is a range of stand sizes for every pocket.

We are planning to hold a curry party on the Friday night at the Rep on the Ground Floor. If you are exhibiting on the ground floor and need stuff locked away in a secure room, then this can be arranged, no problem.

You would be welcome to go into the talks, so long as someone is on the stand during the breaks. If you have valuables, then you cannot leave the stand unattended. We have exclusive hire of the Rep, but not all divers are as honourable as they ought to be.

Fyi we have a number of members of the Thailand Cave rescue team speaking, so there will be divers in the audience who will want to talk to someone about CO monitors and oxygen management.

So here is the cunning plan. Take a sponsorship slot for £1,000 + VAT

This would include

- logo on promotional materials
- ability to put pr into the delegate bags for free - this costs non-sponsors £100
- logo on Gala Award dinner branding (excluding private tables)
- logo on screens in presentation rooms before and after presentations
- the option of bringing additional banners and flags to EUROTEK to enhance your presence

If there are two of you (ie you and John) simply buy a second weekend

pass. I can give you a couple of mt2 in the main reception area of the Rep (Pictures 3, 4 and 5) or outside of the workshop room (Pictures 29 or 30). You could bring along a couple of 1 mt popups advertising your monitors and Johns book. I could find somewhere for John to sit and sign and sell his book. And you could put a flier into the bag advertising the analysers and John's book. Doing it this way gives you more bang for your buck.

Does this appeal?

I look forward to hearing from you in due course.

Cheers
- Roz
